Oil Refineries, Petrochemical & Basic Chemicals Industry

43 completed projects, 2000–2025 — engineering, electrical and I&C works for NIS A.D. Novi Sad and its Pančevo refinery

OIL REFINERIES

PROJECT DESCRIPTION	CLIENT	CONTRACT VALUE	YEAR
Reconstruction and Modernization of the Petroleum Products Transshipment and Storage Terminals in Niš and Smederevo	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	3.561.620 €	2023–2025
Replacement of steam turbine with frequency regulated electric motors of compressors GB-2501 and GB-2301; electrical and I&C works	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	1.690.000 €	2023–2025
Reconstruction of industrial railway track inside Oil Refinery Pančevo, Delivery of electrical equipment, installation works with functional testing and commissioning	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	48.704.170 RSD	2024–2025
Replacing low-voltage switchgear out of Ex zone to substation	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	315.488 €	2024
Reconstruction of reservoir FB-2004 at the Block 20 of Oil Refinery Pančevo; Delivery of electrical and I&C equipment, installation works with functional testing and commissioning	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	130.920 €	2023–2024
Replacement of 6kV cables from TS E Stara /TS E Nova	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	29.143.161 RSD	2023–2024
Reconstruction of reservoir FB-2003 at the Block 20 of Oil Refinery Pančevo; Delivery of electrical and I&C equipment, installation works with functional testing and commissioning	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	98.657 €	2019–2020
Replacement of 6kV cables from TS 35/6kV to TS PPV, from TS HIP 2 to TS G	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	57.000.000 RSD	2019

PROJECT DESCRIPTION	CLIENT	CONTRACT VALUE	YEAR
Supply of materials and works on the project "integral technical protection RNP" – systems of technical protection and electric power installations	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	1.026.743 €	2018–2019
Replacement and relocation outside the Ex zone 0.4 kV MCC in block 5; Delivery of equipment for the replacement of 0.4 kV facilities reconnecting with old customers, buildings construction, cable trays construction, cables laying and termination, expansion of the system to acquire and display data, and functional testing with commissioning.	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	2.423.000 €	2016
Replacement of 6kV switchgears BA and BB in 35/6kV, cable trays construction, cables laying and termination and functional testing with commissioning	NIS A.D., Novi Sad, Oil Refinery Pančevo, Serbia	150.000 €	2016
Blending biocomponents with diesel fuel in Oil Refinery Pančevo, Phase II in NIS ad Novi Sad, Block "Processing"; Performing electrical and instrumentation installation works with delivery of equipment and materials, testing and commissioning, Installation of gas and fire detection system (FGS).	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	1.552.500 €	2015
Closed drainage system in Block 5 and Block 6 in Oil Refinery Pančevo NIS A.D. Novi Sad, Block "Processing"; Delivery, installation, testing and commissioning of electrical power and I&C equipment.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	1.240.521 €	2014–2015
Reconstruction of the automatic drop system on the exhaust duct BF-2201 and connection to the control system-Installation and delivery of equipment to NIS A.D. Novi Sad, Block "Processing", Pančevo Oil Refinery, with testing, commissioning and start up.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	252.159 €	2014
Installation of frequency inverters on cooling tower EF-9132 fans at Oil Refinery Pančevo in NIS ad Novi Sad, Block "Energy"; Delivery, installation, testing and commissioning of electrical power and I&C equipment.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	292.050 €	2014
Construction of new lines for demineralization in Block IX of Oil Refinery Pančevo, NIS A.D. Novi Sad, Block "Processing"; Perform electrical and instrumentation installation works with delivery of equipment and materials, testing and commissioning, gas and fire detection system (FGS), video surveillance and access control systems installation.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	1.697.433 €	2014
Connect 6kV power supply of existing SS "35/6" from new SS 220/6/6 kV (Module 1); Delivery and installation of medium-voltage and low-voltage equipment with the delivery and installation of 6 kV bus system, installation of cable routes, cabling and wiring, testing and commissioning.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	3.900.000 €	2013–2014
Replacing low-voltage switchgear in the substation N1 (Module 2); Delivery of equipment for replacement of 0.4 kV facility with reconnecting to old customers, installation of cable routes, cabling and wiring, individual and functional testing and start up.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	2.050.000 €	2013–2014
Construction of line for condensate polishing in Pančevo Oil Refinery NIS ad Novi Sad, Block "Processing"; Delivery, installation, testing and commissioning of electrical power and I&C equipment, fire and gas detection system (FGS), video surveillance and access control.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	2.800.000 €	2013–2014
Erection of reservoirs for polymer bitumen; Procurement of equipment and materials, electro-instrumental installation works, individual and functional testing with commissioning, installation of fire and gas detection system (FGS).	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	27.588.000 RSD	2014

PROJECT DESCRIPTION	CLIENT	CONTRACT VALUE	YEAR
Installation of frequency converters and replacement of electric motors in air coolers S-2100 and S-2200; Detail design, procurement of equipment and materials, electro-instrumental installation works, individual and functional testing with commissioning.	NIS A.D., Oil Refinery Pančevo, Serbia	55.000.000 RSD	2013–2014
Replacing the general reflector lighting and street lighting with energy efficient lighting equipment in Pančevo Oil Refinery; Concept design with techno-economic study for the facility lighting, recording existing conditions, As built design, design super-vision, procurement of equipment and materials and Installation works.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	27.000.000 RSD	2013
Blending biocomponents with diesel fuel in Oil Refinery Pančevo Phase I in NIS AD Novi Sad, Block "Processing"; Detail design, Procurement of equipment and materials, Electro-instrumental installation works, individual and functional testing .	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	37.467.813 RSD	2013
Pančevo Oil Refinery Modernization Project Construction of the MHC / DHT (Mild Hydrocracking and Distillate Hydrotreating Complex) -ISBL; Electrical and I&C installation works with procurement of material, testing, commissioning, As built design.	NIS A.D., Novi Sad, Serbia Oil Refinery Pančevo, Serbia	11.131.936 €	2011–2012
Pančevo Oil Refinery Modernization Project Construction of the MHC / DHT (Mild Hydrocracking and Distillate Hydrotreating Complex) -OSBL; Electrical and I&C installation works with procurement of material, testing, commissioning, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	4.654.092 €	2011–2012
Pančevo Oil Refinery Modernization Project Construction of the MHC / DHT (Mild Hydrocracking and Distillate Hydrotreating Complex); Fire and gas detection system installation, telecommunications system and video surveillance system installation with the delivery of materials, testing, commissioning, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	667.342 €	2011–2012
Pančevo Oil Refinery Modernization Project Construction of the MHC / DHT (Mild Hydrocracking and Distillate Hydrotreating Complex); Relocation of underground cable routes, with delivery and installation of fiber optic cables and materials.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	241.528 €	2011–2012
Reconstruction of the S-500 (Gas Concentration unit GCU); Electrical and I&C installation works with procurement of material, testing, commissioning, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	501.367 €	2011–2012
Reconstruction of SARU (Spent Acid Recovery Unit); Electrical and I&C installation works with procurement of material, testing, commissioning, start up, As built design.	NIS A.D., Oil Refinery Pančevo, Serbia	624.559 €	2011
Reconstruction of facility for chemical water treatment (HPV); Electrical and I&C installation works with procurement of material, testing, commissioning, integration in to the system and start up, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	29.090.709 RSD	2011
Reconstruction of FCC (Fluid Catalytic Cracking); Delivery of materials, electrical and I&C installation works, individual and functional testing, start up, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	19.026.031 RSD	2011
Reconstruction of HPV rendering plants for sludge treatment; Electrical and I&C installation works with delivery of material, testing, start up, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	16.995.953 RSD	2010
Reconstruction of FCC (Fluid Catalytic Cracking) phase II; Delivery of materials and electrical and I&C installation works, individual and functional testing, start up, As built design.	NIS A.D., Novi Sad, Serbia, Oil Refinery Pančevo, Serbia	16.012.912 RSD	2010

PROJECT DESCRIPTION	CLIENT	CONTRACT VALUE	YEAR
Implementation of the ON LINE BLENDING system (Computer Control Blending) in Oil Refinery Pančevo; Electrical installation works with delivery of materials, testing, start up.	NIS PETROL, Oil Refinery Pančevo, Serbia	36.884.497 RSD	2007–2009
Relocation of the pump station; Detail design and Electrical installation works.	NIS PETROL, Oil Refinery AD Belgrade, Serbia	—	2009
Detection of cable routes and detail design of 0.4 kV cables relocation.	NIS PETROL, Oil Refinery AD Belgrade, Serbia	—	2009
Works for reconstruction of power facilities and I&C equipment.	NIS PETROL, Oil Refinery AD Belgrade, Serbia	—	2008
Replacement 0,4kV cubicles with the new (Schneider) cubicles in SS 6/0.4kV "N2"; Delivery and installation of electrical power equipment and materials, electrical assembly works with testing and commissioning.	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2005
Installation works on implementation of electrical heaters in the benzole P line facility; Installation of I&C cabling and wiring of heating cables, testing and start up.	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2005
0,4kV relay protection testing in SS "N1", "N2", "C", "Energana" and "E".	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2004–2005
Installation of I&C system and equipment, lighting, earthing, lightning, telephony, fire protection and testing and commissioning in power plant. Individual and functional tests and commissioning.	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2002
I&C equipment and system installation (Foxboro I / A), at Sulfolane facility in Oil Refinery Pančevo.	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2000
Installation of 6kV and 0,4kV equipment, electrical drives, lighting, and earthing at the Sulfolane facility in Oil Refinery Pančevo.	NIS PETROL, NIS A.D., Oil Refinery Pančevo, Serbia	—	2000
